Mr. Standley,

I believe that Dr Bill Jacobs will be able to provide you a copy of the appropriate test protocol. I have copied him on this message.

Best,
Laura Parsons

Subject: Rodenticide Testing

Mrs. Parsons,

Forgive me, because I am not sure whom I should be speaking to. But I am trying to locate a test method designated OPP 1.230. It should be a protocol for a test to determine how canine-proof a rodent bait station is. I have found the harmonized test guidelines, but have not found OPP 1.230. If you could point me in a direction or to someone who could assist me, I would be very grateful.

Thanks,
Patrick Standley
